**Errata 3**

June 10, 2014

**ADDENDUM**

Please note the following corrections and/or additions to our Notice of Competitive Lease Sale, Oil and Gas, dated March 21, 2014. The oral auction is scheduled on June 19, 2014 at 10 am in Springfield, Virginia.

Based on information we received from the public, other federal agencies, and our own internal review, we will defer offering the Forest Service parcel, **ES-009-06/2014 MSES 057936 ACQ**, located in the Homochitto National Forest until additional analysis can be completed. The Forest Service determines where and under what conditions oil and gas leasing can occur on National Forest System lands. The BLM then determines whether or not National Environmental Policy Act (NEPA) requirements have been met before the BLM offers the Forest Service oil and gas leases for sale at auction. The BLM manages the nation's publicly owned mineral estate.

The BLM posts notices of upcoming oil and gas lease sales and reviews comments and protests from the public prior to the sale. Based on public input, the BLM can choose to offer the parcels, defer them for additional analysis, or offer protested parcels with a notice to lessees that the parcels are under protest.
